Items Published in the Official Journal of the European Patent Office

The European Patent Office has requested that the following notices be published in the OFFICIAL GAZETTE since they are of interest to persons involved in the field of patent law in the United States. The notices relate to three topics:

1. The announcement concerning the filing and restrictions on the processing of European patent applications. In this notice, the Patent and Trademark Office has added the title of the areas of the International Patent Classification referred to.
2. The decision of the Administrative Council of the European Patent Organization concerning the restriction of the processing of European patent applications.
3. The announcement concerning the information service regarding the restriction of processing of applications—Preclassification Service and the Request form for the Preclassification Service.

The notices read as follows:

ANNOUNCEMENT CONCERNING THE FILING AND RESTRICTIONS ON THE PROCESSING OF EUROPEAN PATENT APPLICATION*

1. *Filing of European patent applications*

On the recommendation of the President of the European Patent Office, the Administrative Council of the European Patent Organisation decided at its first meeting (19–21 October 1977), pursuant to Article 162, paragraph 1, of the European Patent Convention (EPC), that European patent applications may be filed with the EPO from 1 June 1978.

Pursuant to this decision the EPO will be accepting European patent applications from 1 May 1978. However, the date of filing of applications received in May will be 1 June 1978. Applications may be filed with

(a) the branch of the European Patent Office at The Hague (Patentlaan 2, NL–2280 Rijswik) or
(b) the European Patent Office in Munich (Rosenheimer Str. 30, Motorama Haus, D–8000 München 80).

Wherever possible, applications should be filed with the branch at The Hague since it will be handling the first phase of the procedure.

The right to file European patent applications with the central industrial property office or other competent authority of a Contracting State, where the law of that State so permits, is not affected (see Article 75, paragraph 1 (b) EPC).

DECISION OF THE ADMINISTRATIVE COUNCIL OF THE EUROPEAN PATENT ORGANISATION OF 19 DECEMBER 1977 CONCERNING THE RESTRICTION OF THE PROCESSING OF EUROPEAN PATENT APPLICATIONS UNDER ARTICLE 162, PARAGRAPH 2, OF THE EUROPEAN PATENT CONVENTION*

The Administrative Council of the European Patent Organisation,

Having Regard to the European Patent Convention, and in particular Article 162, paragraph 2 thereof,

Having Regard to the proposal of the President of the European Patent Office,

Having Regard to the written procedure initiated pursuant to Article 7 of the Rules of Procedure of the Administrative Council on the basis of the letter dated 17 November 1977 to Council members and of document CA/2/77 annexed to that letter.

Has Decided as Follows:

ARTICLE 1

As from 1 June 1978 the processing of European patent applications in certain areas of technology shall be restricted.

ARTICLE 2

The restrictions shall apply solely in respect of substantive examination and subsequent proceedings.

ARTICLE 3

The areas of technology in which applications filed in the period from 1 June 1978 to 30 November 1978 will be fully processed shall be as listed in column 1 of the Annex to this Decision.

ARTICLE 4

The areas of technology in which applications filed in the period from 1 December 1978 to 31 May 1979 will be fully processed shall be as listed in column 2 of the Annex to this Decision.

ARTICLE 5

This decision shall enter into force on 19 December 1977.

DONE at Berne, 19 December 1977.

For the Administrative Council

The Vice-Chairman

Paul Braendli

Annex

AREAS OF TECHNOLOGY IN WHICH APPLICATIONS WILL BE FULLY PROCESSED

The areas of technology listed below are defined by the symbols of the International Patent Classification.

*This Decision of the Administrative Council of the European Patent Organisation confirms the announcement published in the Official Journal No. 1/1978 (page 31) concerning the filing and restrictions on the processing of European patent applications. The fields of technology listed in that announcement and annexed to this decision are identical.

The classification symbols to be taken into consideration in determining the technical field will be restricted to those classifying the invention.

If an invention is classified with more than one classification symbol and not all of these symbols are included in the areas of technology mentioned in the Annex to the decision of the Administrative Council then the application having as its subject this invention will be processed without restriction.

ANNOUNCEMENT—INFORMATION SERVICE REGARDING THE RESTRICTION OF PROCESSING OF APPLICATIONS (PRE-CLASSIFICATION SERVICE)

As long as the processing of European patent applications is restricted under Article 162, paragraph 2, the European Patent Office (EPO) will offer the following service to potential applicants:

The European Patent Office will determine provisionally in which sub-class or sub-classes of the International Patent Classification an invention which is likely to form the subject of a European patent application falls.

The EPO will also establish whether this sub-class or these sub-classes will be the areas of technology in respect of which processing is restricted at the envisaged time of filing of the prospective application.

The EPO will then communicate this information to the person making the request.

The EPO will perform this service in response to a written request. When making their request, users of the service are recommended to use the form in the Annex, which will be obtainable from the EPO (see addresses below), or to use the text of the form in their request.

If the form or text thereof is not used, the request should in any case be clearly identified as a request for the "pre-classification service." It should state that an indication is required of the sub-class or sub-classes of the International Patent Classification in which the invention falls, and whether this sub-class or one of these sub-classes will be on the list open for examination at the envisaged time of filing. The request should state in which month the prospective application is likely to be filed. The request and the documents accompanying it must be in an official language of the EPO, (English, French or German).

The pre-classification request must be accompanied by the following documents: either

a) the description, claims and drawings which will be filed if the invention becomes the subject of a European patent application; or
b) the claims which will be filed if the invention becomes the subject of a European patent application, and a copy of a previous application whose priority is to be claimed if it is already in English, French or German, or if it is not, a translation of it into one of these languages.

For the present, no fee will be charged for this service.

The pre-classification request and the documents accompanying it will not be returned to the user of the service. The EPO will however maintain confidentiality in respect of these documents. It should be noted that documents relating to an invention sent to the EPO in connection with this service cannot form a basis for a claim to priority under the Paris Convention for the Protection of Industrial Property.

Potential users of this service are reminded of their responsibility for complying with any national legislative or regulatory provisions governing inventions which, owing to the nature of their subject matter, may not be communicated abroad without the prior authorisation of the competent authorities of the State in question, (cf Article 75, paragraph 2, EPC).

No person, irrespective of his state of residence or principal place of business, is compelled to act through the intermediary of a representative in using the service. However, natural or legal persons may make their request for the service through the intermediary of a representative. In this case, it is not necessary for the representative to file with the EPO an authorisation to act in this capacity.

This service will commence on 1 February 1978. Requests for the service should preferably be sent directly to or filed at the European Patent Office, Branch at The Hague, where they will be dealt with.

Postal address:
European Patent Office
PO Box No. 5818
NL–2280 HV Rijswijk ZH

Address for deliveries by hand:

Requests will also be accepted at the European Patent Office, Munich:

Postal address:
European Patent Office
PO Box 20 20 20
D–8000 München 2

Address for deliveries by hand:
European Patent Office
Rosenheimer Strasse 30

Every effort will be made to provide a reliable service and to ensure that if the EPO assigns a provisional classification which is open for examination when the ensuing application is filed, that this application will be examined. However, the EPO can give no guarantee to that effect and therefore assumes no liability.

The undersigned requests the European Patent Office to determine provisionally and communicate to him:

(i) in which sub-class or sub-classes of the International Patent Classification the invention set out in the accompanying documents falls;

(ii) whether this sub-class or one of these sub-classes will be on the list open for examination at the envisaged time of filing of the prospective European Patent application.

The envisaged time of filing of the prospective application is:

Month ..... Year .....*

Accompanying documents (please tick where applicable):

- ☐ description
- ☐ drawings
- ☐ copy of previous application whose priority is to be claimed
- ☐ translation of previous application into English, French or German
- ☐ claims

*If the envisaged time of filing is not indicated, the EPO will still perform the service, but will indicate whether the sub-class or one of the sub-classes is open for examination at the time of performing the service.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).
